I have enough experience to deliver good quality products to my clients and provide them with best solutions and make their ideas into complete and beautiful layout. I am very passionate and dedicated to my work. Indeed through my experience as a Front-End website developer, I have acquire necessary skills and knowledge to make project a success! I am always open to discuss the new ideas.

EDUCATION

Aptech Institute of Technology – Software Engineering (Progress) (Affiliated from Middle Sex University, Malaysia)	*2022 – 2025*
Board of Intermediate Education Karachi – Intermediate	*2016 – 2018*
Board of Secondary Education Karachi – Matriculation	*2014 – 2016*

WORK EXPERIENCE

Office – Vision 360 BPO Solutions

Feb 2023'

- Migrated my office website on new Host and Domain through the Cpanel. Where I changed the images, color, Editing in text and add some functionality as per Client's requirement and as well organized the themes, color and configurations, as well as the directories. Then, I have been changed some page name text from the navbar & uploaded it to new host and assign it to new domain. I provided clean, well-organized code that was easy to navigate, resulting in a successful client's presentation.

PERSONAL PROJECT

Project – E-Commerce Shopping Website (NEXTAG)

20-March 23 to *10-April 23'*

- Developed an E-Commerce Shopping Website who assign us for E-Project. It was a team work project whose leader was me and we had to work on the project together and then gave the presentation in the class of the entire website. It was a best experience for me that I lead the group and made together a complete Static E-Commerce Shopping website and uploaded it to host and then gave the presentation in the class.
